

When you open the app, it allows you to take pictures of the clothes you have

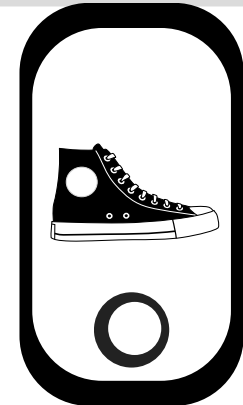

Once you've taken pictures of your clothes, you can shuffle through them to allow for different outfit options

These are the options that will appear once you've opened the app.

As well as looking for inspiration on clothing, some need inspiration and even a reminder of the jewellery they own, so they can also take pictures of jewellery and shoes as well

Although you can sift through options of your choice, sometimes you still can't seem to find the outfit you are looking for, so there's an option to randomize your clothes to see if you can find inspiration there too!
